Wordle is a **toy** for generating “word clouds” from text that you provide.

The clouds give greater prominence to words that appear more frequently in the source text.

You can tweak your clouds with different fonts, layouts, and color schemes.

The images you create with Wordle are yours to use however you like. You can print them out, or save them to the Wordle gallery to share with your friends.

There once was a pretty boy called Blair
Who always sat on a rocking chair
He liked to skate to school
And loved to act the fool
But the girls laughed at his ginga hair
